How can these ingredients,
most of them networks,
support upscaling digital
solutions?

Call for action!

Let's upscale Digital Skills with Smart Labs, places to learn:

- How to use technology, how it works, possibilities and risks
- Information flows, machine learning, limits of computing, etc (Matti Tedre)
- Literacy for AI, Machine Learning, Machine Vision, Cyber Security, ...
- Minimal Interoperability Mechanisms
- Smart Labs differ from Citizen Labs, Digital Centers, ...
