

**Cefmof**  
creating a CN future

# **Cefmof + City of Jyväskylä: H2 buses and refueling station**

Northern Power Business Forum

15.02.2025

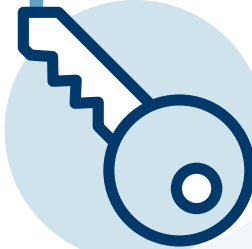

[esa.eerola@cefmaf.org](mailto:esa.eerola@cefmaf.org)

# Background

## January 2024

Cefmof was established to promote carbon neutrality and accelerate the green transition.

## February 2024

Promoting a hydrogen society and hydrogen use in transport was selected as a key focus area.

## September 2024

A project on H2 buses and the Jyväskylä HRS was announced.

# Progress in 2024

- **Accelerating the HRS establishment**

Ensuring a steady initial demand for H2

- **H2 buses with the City of Jyväskylä**

Vendor selection

Technical specifications

Depot requirements

- **H2 cars and trucks**

Awareness building

Promotional events for taxi companies

Discussions with logistics companies

# Status and next steps

## Overseeing the HRS project

Construction in spring  
Commissioning in summer

## Supervising the H2 bus project

Manufacturing ongoing  
Acceptance testing and registration  
Mechanics and driver training  
Delivery to Jyväskylä in May/June

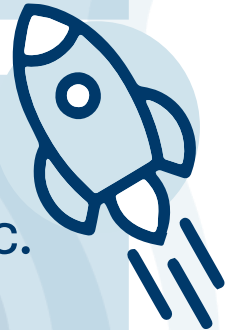

## H2 cars and trucks

Identifying and connecting  
interested parties

## Collaborating with H2 projects

JIVE, HyTruck, H2VT4 by JAMK etc.

# In summary

- With the City of Jyväskylä and other stakeholders, **we are pioneering** the use of hydrogen in public transport in Finland.
- Our goal is to boost hydrogen demand and **inspire** stakeholders to **initiate** and **accelerate** projects in other regions as well.

## We expect

- To encounter many surprises and learn a lot along the way
- Our project to open new business and research opportunities  
→ let's innovate and work together!

***Cefmof is a facilitator and networker, accelerating hydrogen ecosystem through innovation and experience.***

**Cefmof**  
creating a CN future

**Let's co-create a carbon-neutral future  
with hydrogen together!**
